

Always the best climate for

# BALANCED VENTILATION WITH CLIMATE SWITCH®

Getting a comfortable indoor climate all year round – without caring

## Get more out of your ventilation system – without caring

Within hot summers, icy cold winters and ever varying shoulder seasons we're even more requiring a comfortable indoor climate to feel well at home.

With Climate Switch® from Zehnder your ventilation unit automatically offers fresh air with the best stable indoor climate in every season and this in an energy-efficient way.

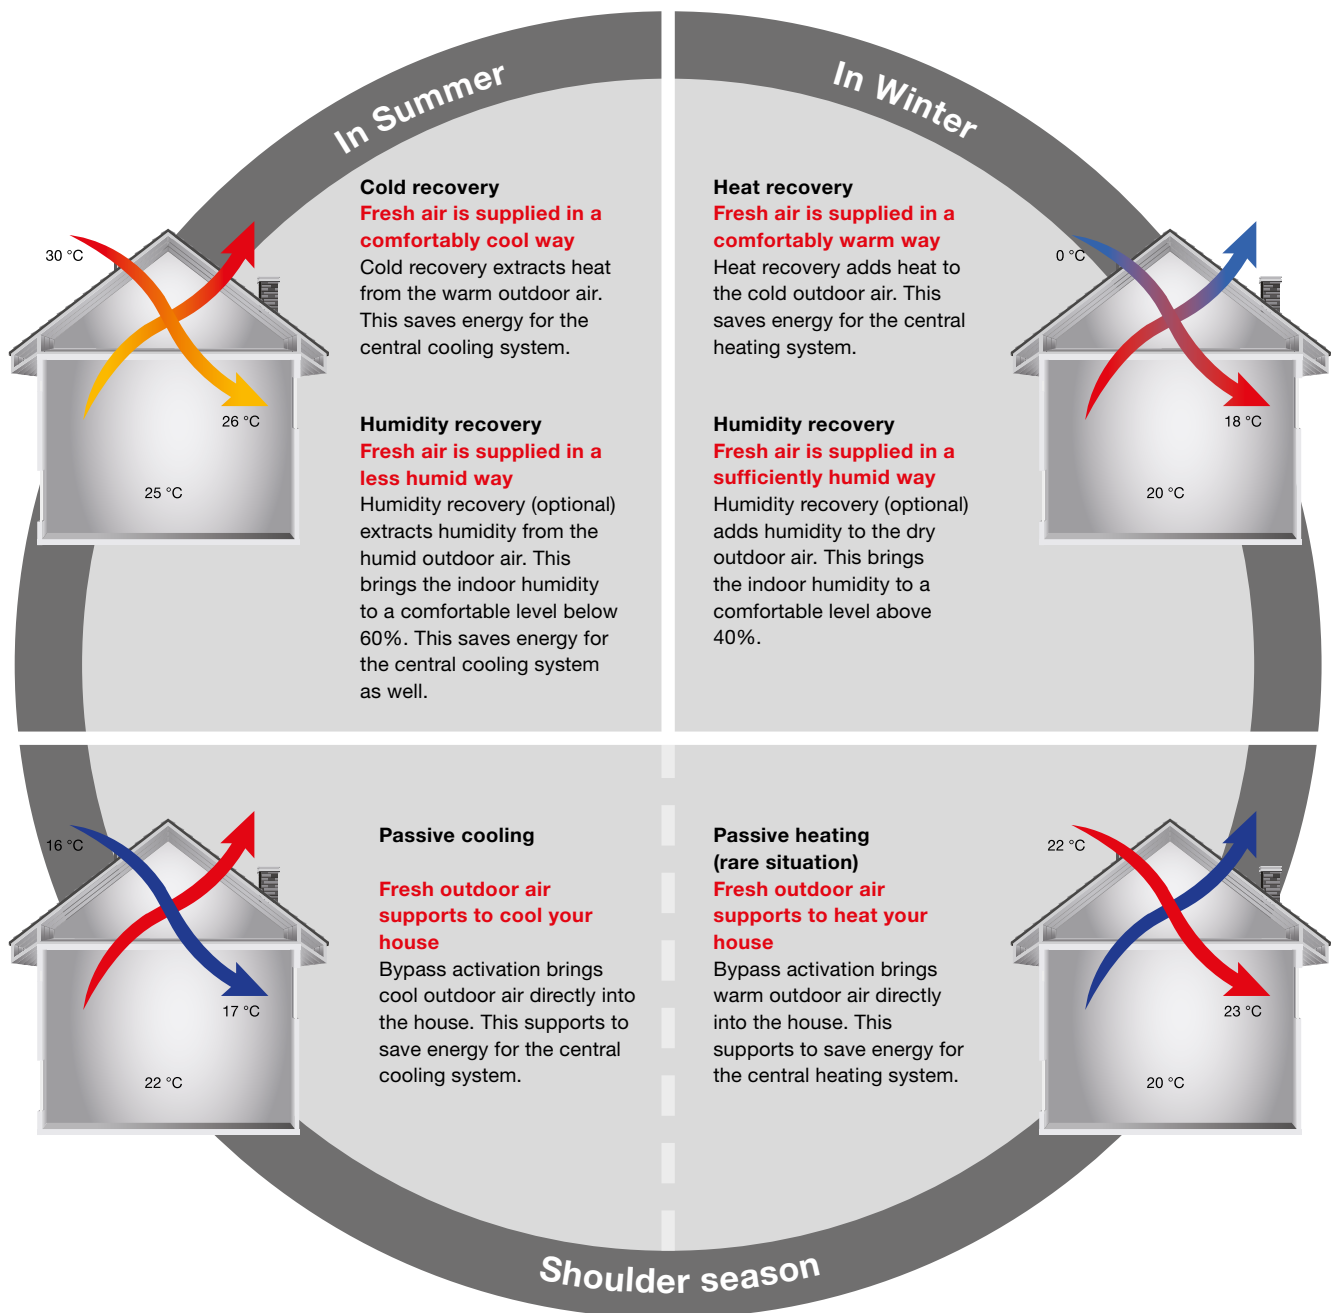

## Climate Switch® inside

Find this logo on every ComfoAir Q and be sure having the best automatic adjusted indoor climate all year round – without caring.

- ✔ **Optimum comfort and improved indoor air quality**  
You feel this! You're more energetic, concentrated and in a good mood.
- ✔ **Reduced energy costs**  
Heat, cold and humidity recovery have a high level of energy efficiency.
- ✔ **Good for your health**  
Climate Switch® ensures fresh air supply throughout the house, unhealthy particles are efficiently filtered out of the air and the humidity is balanced.

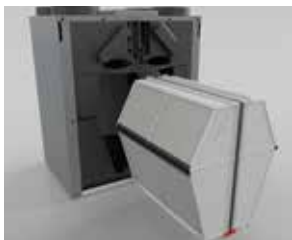

## How does Climate Switch® work?
